

## **Welcome to the Pennsylvania Keystone AAHAM Certification Corner!**

Certification is the cornerstone of AAHAM. For over forty years, AAHAM has been the leader in patient financial services and revenue cycle education and certification programs.

Achieving certification assists us in keeping pace with industry changes and helps us to remain compliant with ever-changing regulations. Earning professional certification shows your commitment, professionalism and expertise in your chosen field.

The Pennsylvania Keystone Chapter is proud of its certified members and continues to support its members in achieving all levels of certification (executive, professional and technical).

A top priority is the Pennsylvania Keystone Chapter's commitment to the technical certification programs available through AAHAM. Many of our members support their staff in achieving technical certification as we recognize the need for technical proficiency which allows our staff to excel and reach their potential.

Achieving executive, professional or technical certification is an investment in your professional career and personal growth.

If you are interested in any of the AAHAM certification designations (CRCE, CRCP, CRIP, CRCS, or CCT), please contact Carolyn Brown, CRCE-I, Pennsylvania Keystone AAHAM Certification Chairperson at 717-901-4238 or [cbrown@oip.com](mailto:cbrown@oip.com).
